	Effective in content delivery					5	6	100%
	Effective in generating participation					4	7	100%
	Effective in facilitating discussion					5	6	100%

6. Aspect/s of the programme most useful to you on your job is/are:

- Enhance better understanding and _____ of conduct simulation
- Structure of learning session. Development of simulation scenario
- How to prepare situation and how to debrief
- To learn how to operate simulator better, understand how to initiate / start a simulation session and definitely providing feedback
- Construction of simulation scenario, running a simulation & debriefing
- The incorporation of the manikin and the debriefing session
- Application of questioning technique. Learning different types of methods of simulation
- Debriefing
- Putting theory into practice during the hands on simulation
- The session on debriefing were definitely useful for my upcoming ventures as a CI

7. What can be done to improve instructional quality?

- NA

8. What can be done to improve the programme?

- Thank you very much. I love to have the opportunity _____ to join the group of nurses. Was difficult to _ & participate to simulations but I learned a lot from the principles under this
- All was good
- Re-sequence didactic lectures and simulation runs such that not all 3 simulation runs are done one after another
- More practice session to design and carry out the scenario

9. Additional comments:

- Thank you for a great session. Informative & great demonstration of appreciation to clinical teaching session
- It would be good to let us do more debrief session

10. What other nursing programmes would you suggest that NED offer?

- LSCN
- For those professional who wanted to use simulation for teaching or project
